MASK MANDATE

BEGINNING SATURDAY, MAY 15TH:

The CDC, the State of Maryland and Coppermine have declared that masks are now unnecessary indoors for people who have been vaccinated. While Coppermine is not requiring masks in the facility, we're asking that members please follow the NEVERMORE Mask Mandate Policy, listed below. Our current mask mandate update mimics that of our Phase 1 Guidelines.

WHAT DOES THIS UPDATE ENTAIL?

INDOOR:

1. Indoor coaches can have their masks off in the **FRONT OF THE ROOM**. If a Coach is walking around the room / helping athletes, they **MUST** put their mask back on.
2. An indoor athlete **MUST** be wearing a mask when they are:
 - Socializing
 - Outside of their designated workout box
3. Athletes may **REMOVE** their mask:
 - Anytime an athlete is in their designated box, including:
 - Strength / Skill
 - MetCon / WOD
 - ***When an athlete goes out for a run, no mask is needed.***

OUTDOOR:

1. An outdoor athlete **MUST** be wearing a mask:
 - Any time they enter the indoor location that holds the equipment
 - Any time they go inside to use the bathroom

The Nevermore Community has done an amazing job throughout this difficult, unprecedented period. We're so grateful for our members following our policies and procedures, put into place to keep everyone safe, happy, healthy and moving, without question (even if we haven't loved it).

Just a reminder that we have some members who are currently unable to get vaccinated based on medical needs and doctors orders - and we want to make sure EVERYONE feels safe. The protocol above will help us keep everyone as safe as possible, while still eliminating masks during the workouts.

Let's continue to do what it takes to keep our entire Nevermore Community safe, happy and healthy - and moving!

THANK YOU FOR UNDERSTANDING!
